

Less is more!

Training for those working with clients living in clutter or hoarding

This training includes;

1. Difference between hoarding and squalor
2. Why hoarding is a mental illness
3. Reduce the risk
4. Reduce the amount
5. Case study examples
6. Resources
7. 30min free post training follow up with each attendee after the training (within 6 months).

Hoarding is often a result of grief and trauma, often starts in childhood or adolescence and gets worse as we age.

Quick clean-ups deal with the symptoms not the cause, and re-traumatise people.

This training is presented by Tania Reid, from For the Crowded House in Melbourne. After 12 years in the community sector, Tania is now a specialist with years' experience working with people affected by clutter, hoarding and squalor. **She has presented at the last 2 National Hoarding and Squalor Conferences in Sydney and has written the first children's book "An Ordinary House" which deals with impact of hoarding on children.**
